From the President:

We have had a good year at the club, with many new Board of Directors and Trustees managing the business of running the club. We have welcomed Mike B as Membership chairperson and appreciate his dedication. We have added new AA groups to our meetings board and welcome any other meetings who care to join our growing list. We are anticipating a group for Polish speaking AA members and those details are being finalized now. Our 2006 PIO Fest was a success in spite of the soaring temperatures at the end of July. We are already planning for next year's festival and are welcoming new people to the committees as well as 'seasoned' volunteers.

And thanks to all who helped make the previous festival such a success.

We are planning some needed renovations to our roof and will be welcoming a new computer system for book keeping and membership use. We will be using our grant from the Bader foundation for these expenditures.

The club is always looking for volunteers for a variety of opportunities, or to organize and host events in keeping with the club's guidelines. Helping with the counter is a good way to start getting to know other members and helps us keep our club open every day. Training is available and a variety of 3 hour shifts are open. You can even do it in teams (sponsor and sponsee!) Ask to speak to Mark R or Ann Z. or leave a message at the counter.

MEMBERSHIP: As mentioned above, we have a new Membership coordinator, Mike B. As many of you already know from receiving mailings he has restyled our Membership cards and letters with our new club letterhead. This has streamlined our new and renewing membership process. The board is also working on increasing the benefits exclusive to membership, so stay tuned!
